## Full Stack Developer
5 years experience

## Summary

I work as a full stack developer at Cergis Software based in London, UK.
Currently, I execute a range of task within web development; including planning, developing, troubleshooting and debugging.
Having been involved in a variety of projects, I have worked as part of a team creating high-traffic websites along with also managing smaller missions where I performed the entire process start to finish.

## Technical skills

C#, Razor, MVC, PHP
HTML5, CSS3, Bootstrap, LESS, JavaScript, jQuery
Photoshop CS6, Illustrator CS6, Visual Studio 2013

Umbraco, ModX, Wordpress
SQL, XML
UML, SVN/CVS, Git
